### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**In Claim-10, Line 2, AFTER ' adjacent ' INSERT -- a plurality of particles of —**

The claim was amended to overcome the 112- issues pertaining to the antecedent basis for the particles in the lines 7 and 8 of the claim.

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Claims 1, 3-4, 6 and 10 are allowed as amended. The limitations incorporated into these claims were previously allowed. An updated search did not result in any new prior art of record that either teaches nor fairly suggest applicant's composition and a method of making applicants composition containing a magnesium diboride superconductor. The closest prior art by Dunand (US 6,630,427; PTOL-892, 04/07/2006) teaches an MgB<sub>2</sub> superconductor containing metal matrix, but fails to teach or fairly suggest applicant's structure of the composition, or a method of making the superconductor structure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kallambella Vijayakumar whose telephone number is 571-272-1324. The examiner can normally be reached on 6.30-4.00 Mon-Thu, 6.30-2.00 Alt Fri.
